Sort Z to A

Step 5: Download the installation file from Ableton 12 folder.

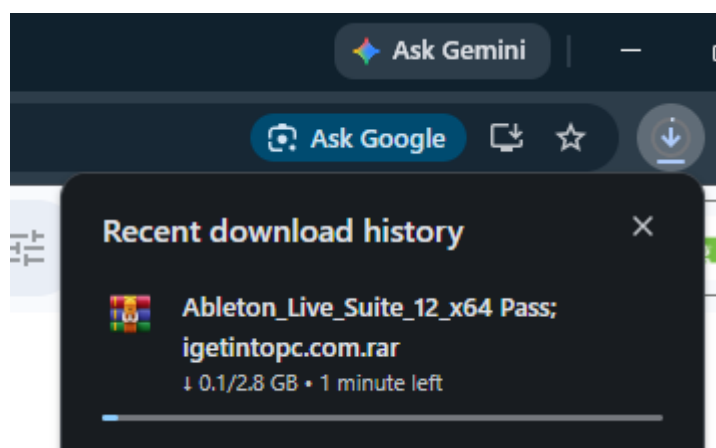

... > Windows > Ableton 12 ▾

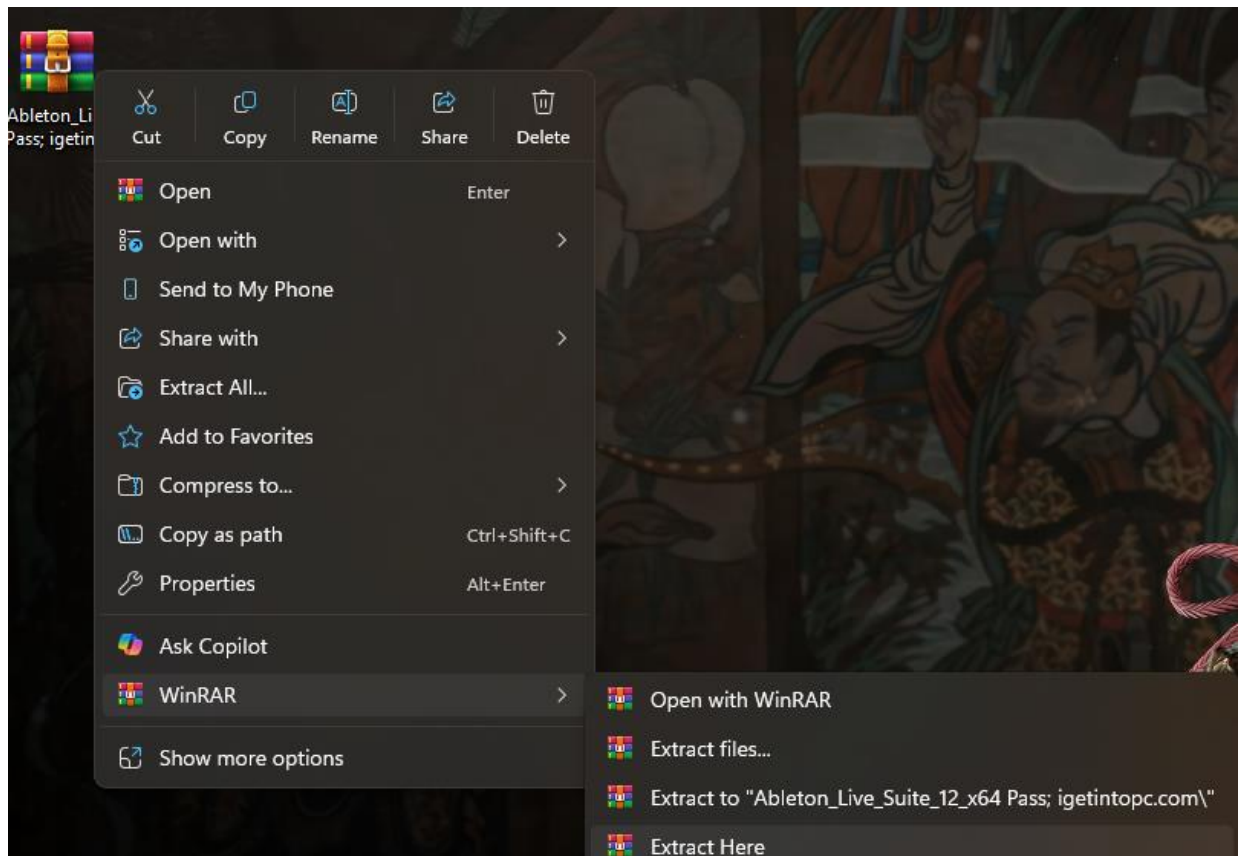

Step 6: When you try to download the Ableton 12 file from Google Drive, you may see a warning. Simply click "Download anyway" to continue with the download.

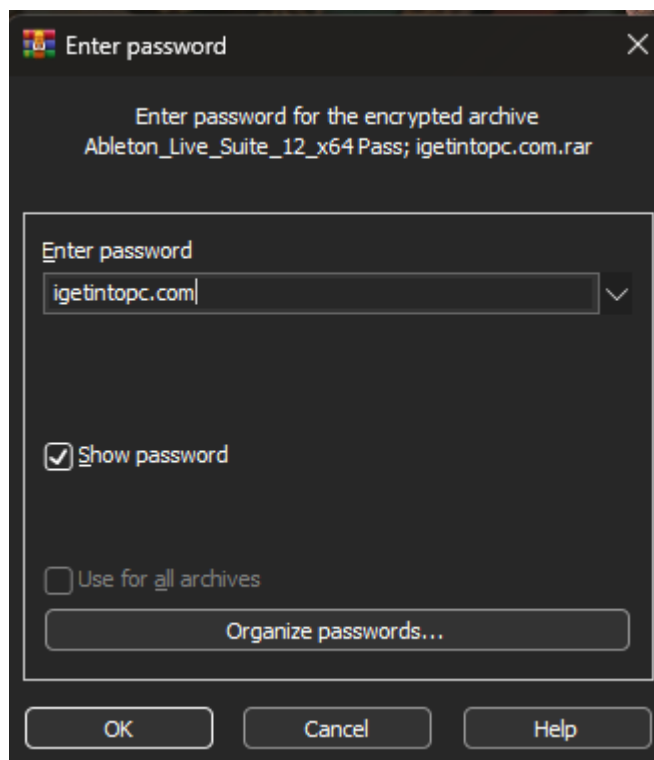

Step 7: Then, you'll see the file start downloading in your browser.

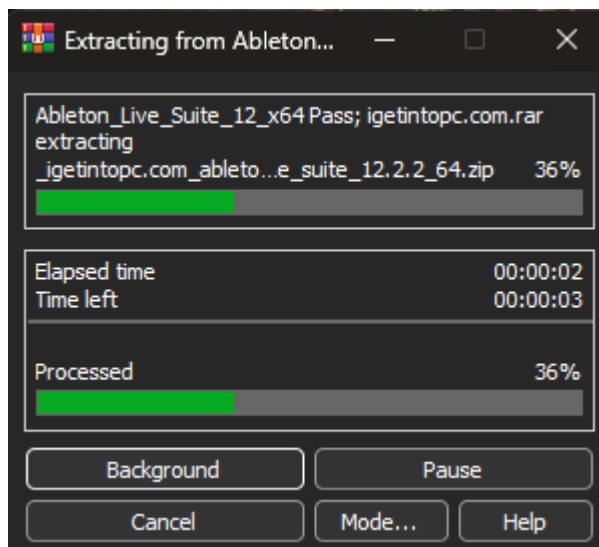

Step 8: Once Ableton Live 12 has been installed, extract the downloaded file using WinZip, as shown in the image below.

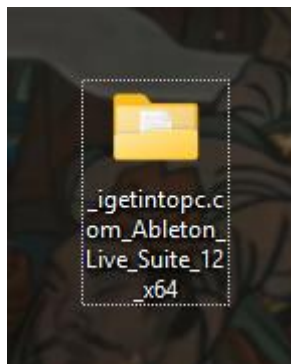

Step 9: When extracting the file, you will be asked for an extraction password. Enter igetintopc.com, and the extraction process will begin.

Step 10: After you enter the password, the extraction process will start automatically.

Step 11: Once the extraction is complete, you'll see the following folder.

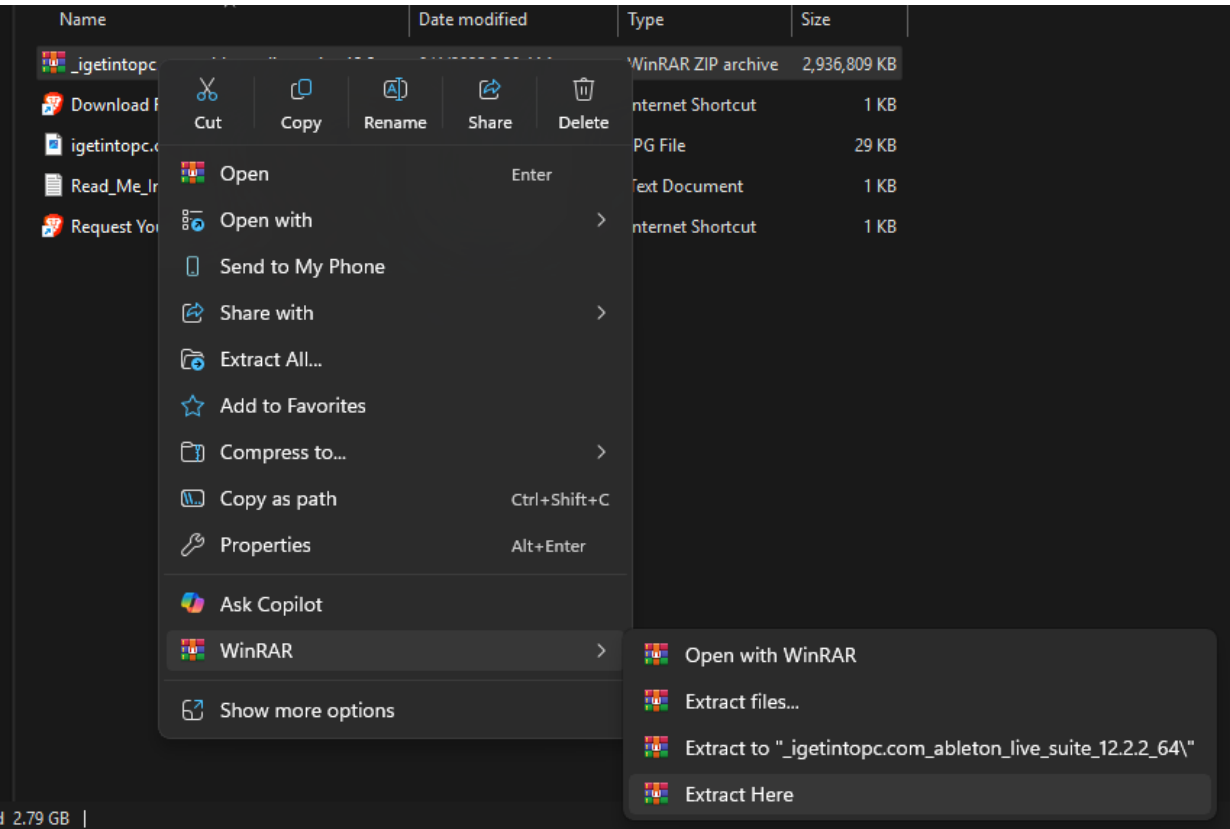

Step 12: Once you open the folder, you'll see the following files and folders.

Name	Date modified	Type	Size
_igetintopc.com_Fix	8/18/2025 11:58 AM	File folder	
Install	8/18/2025 11:58 AM	File folder	
Download Free Software	5/1/2018 1:58 AM	Internet Shortcut	1 KB
igetintopc.com	1/31/2022 1:09 PM	JPG File	29 KB
Read_Me_Important	9/9/2023 3:50 PM	Text Document	1 KB
Request Your Applications here	6/21/2019 4:03 AM	Internet Shortcut	1 KB

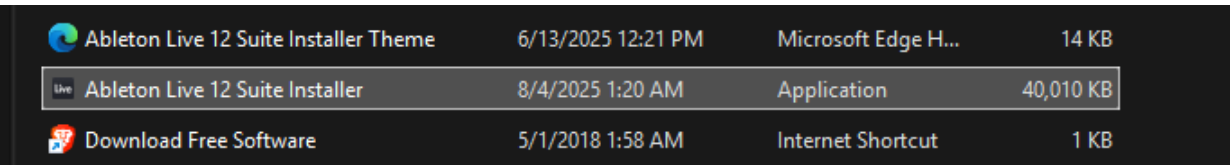

Step 13: Open the Install folder, and you'll see the files shown below.

Name	Date modified	Type	Size
_igetintopc.com_ableton_live_suite_12.2....	8/4/2025 3:39 AM	WinRAR ZIP archive	2,936,809 KB

Step 14: Next, extract the _igetintopc.com_ableton-live_suite_12 file from the Install folder.

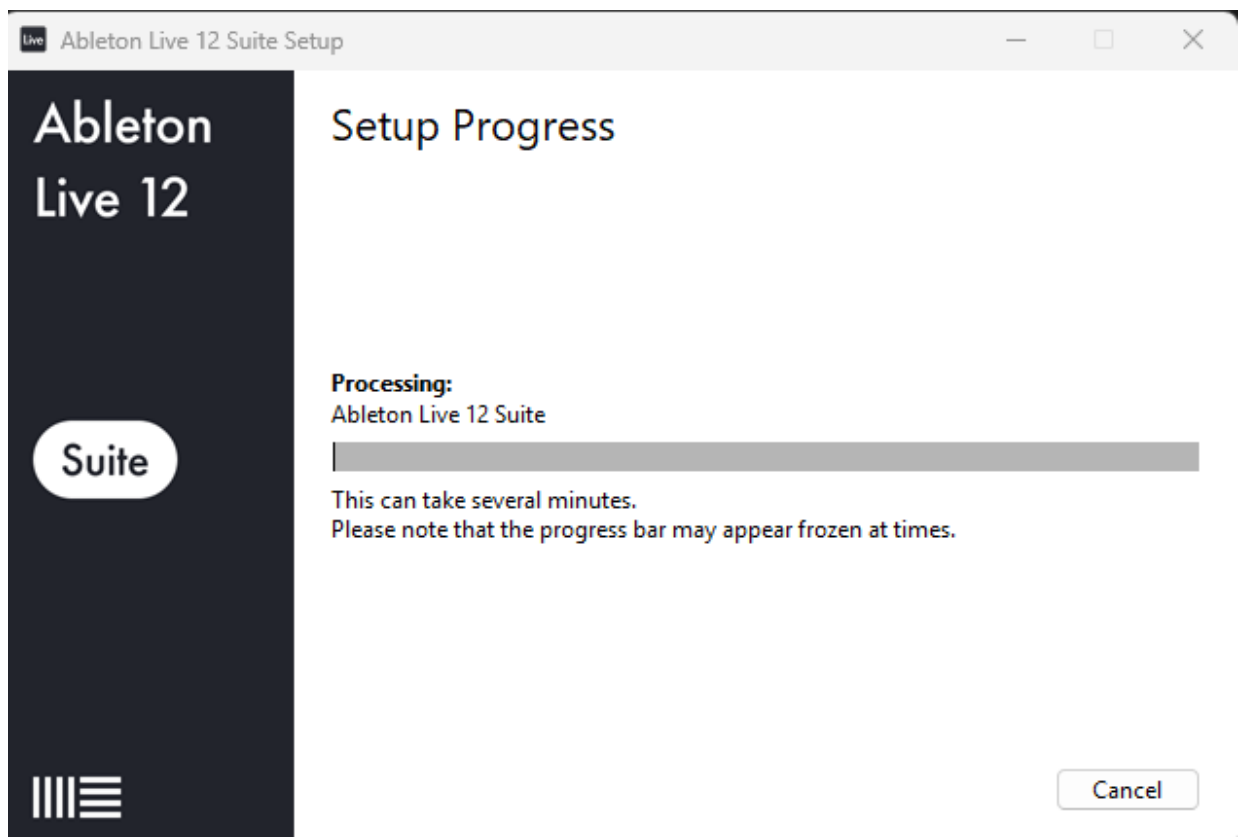

Step 15: Once the ZIP file has been extracted, you'll see the Ableton Live 12 Suite Installer. Double-click it to run the installer.

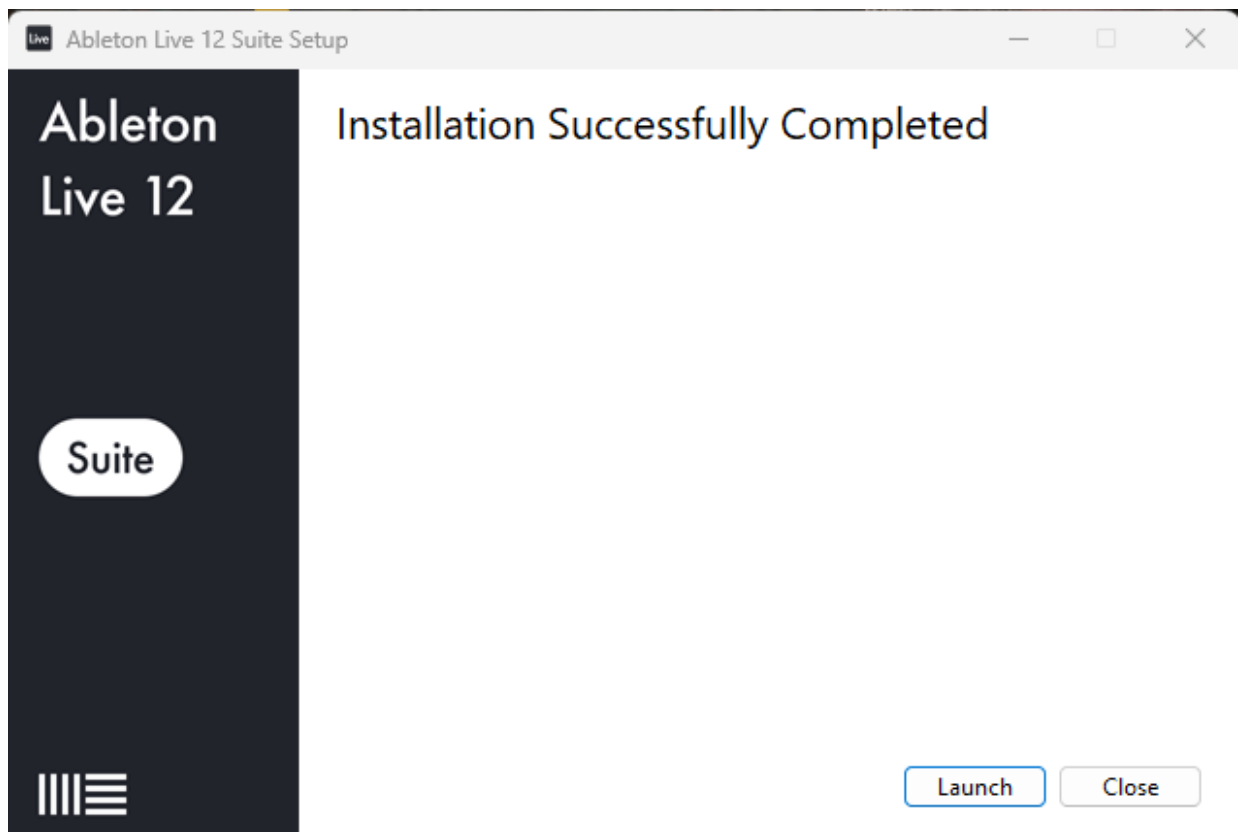

Step 16: After launching the installer, you will see the following screen. Select “I agree to the license terms and conditions” to proceed with the Ableton Live 12 Suite installation.

Step 17: Once you click the **Install** button, the setup process will begin, as shown below.

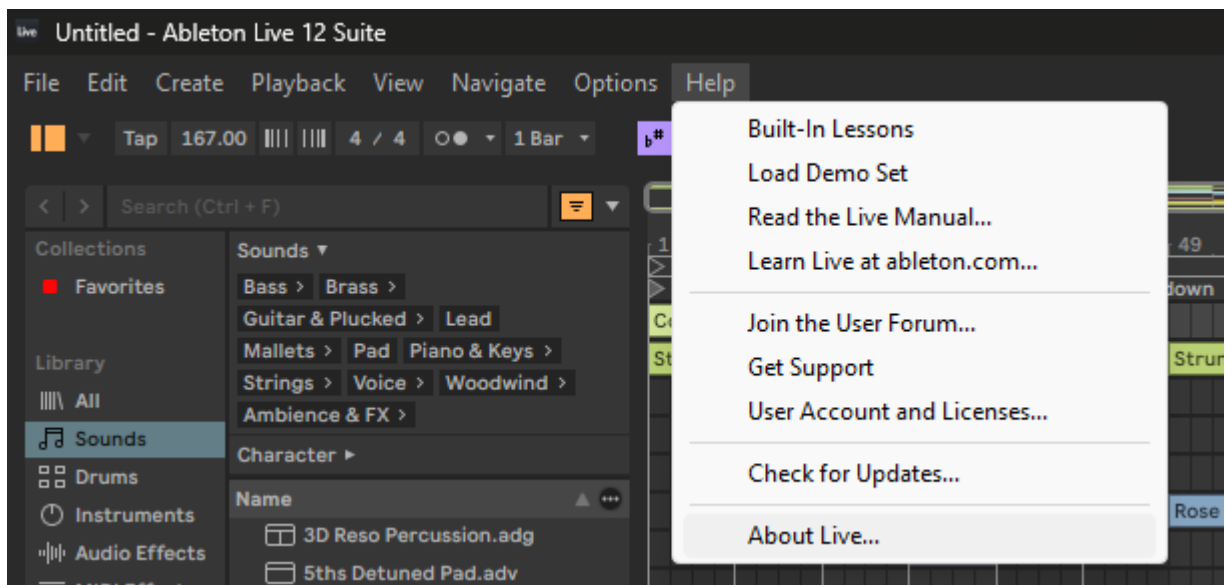

Step 18: Once the setup is complete, you can launch the software.

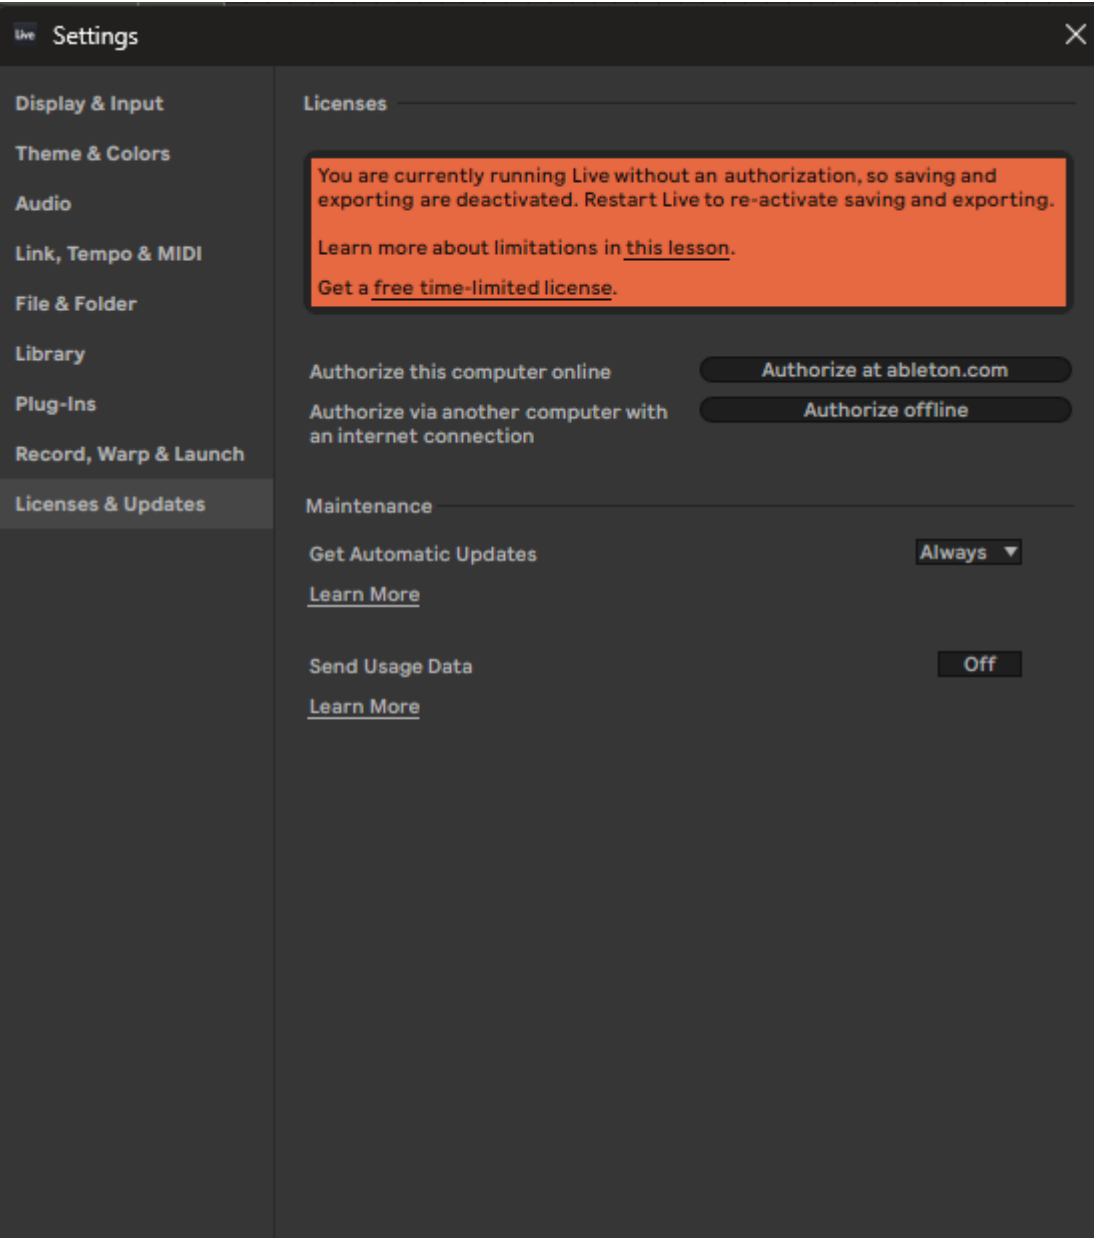

Step 19: After launching the software, this screen will appear. Click the “**Authorize Later**” button to continue.

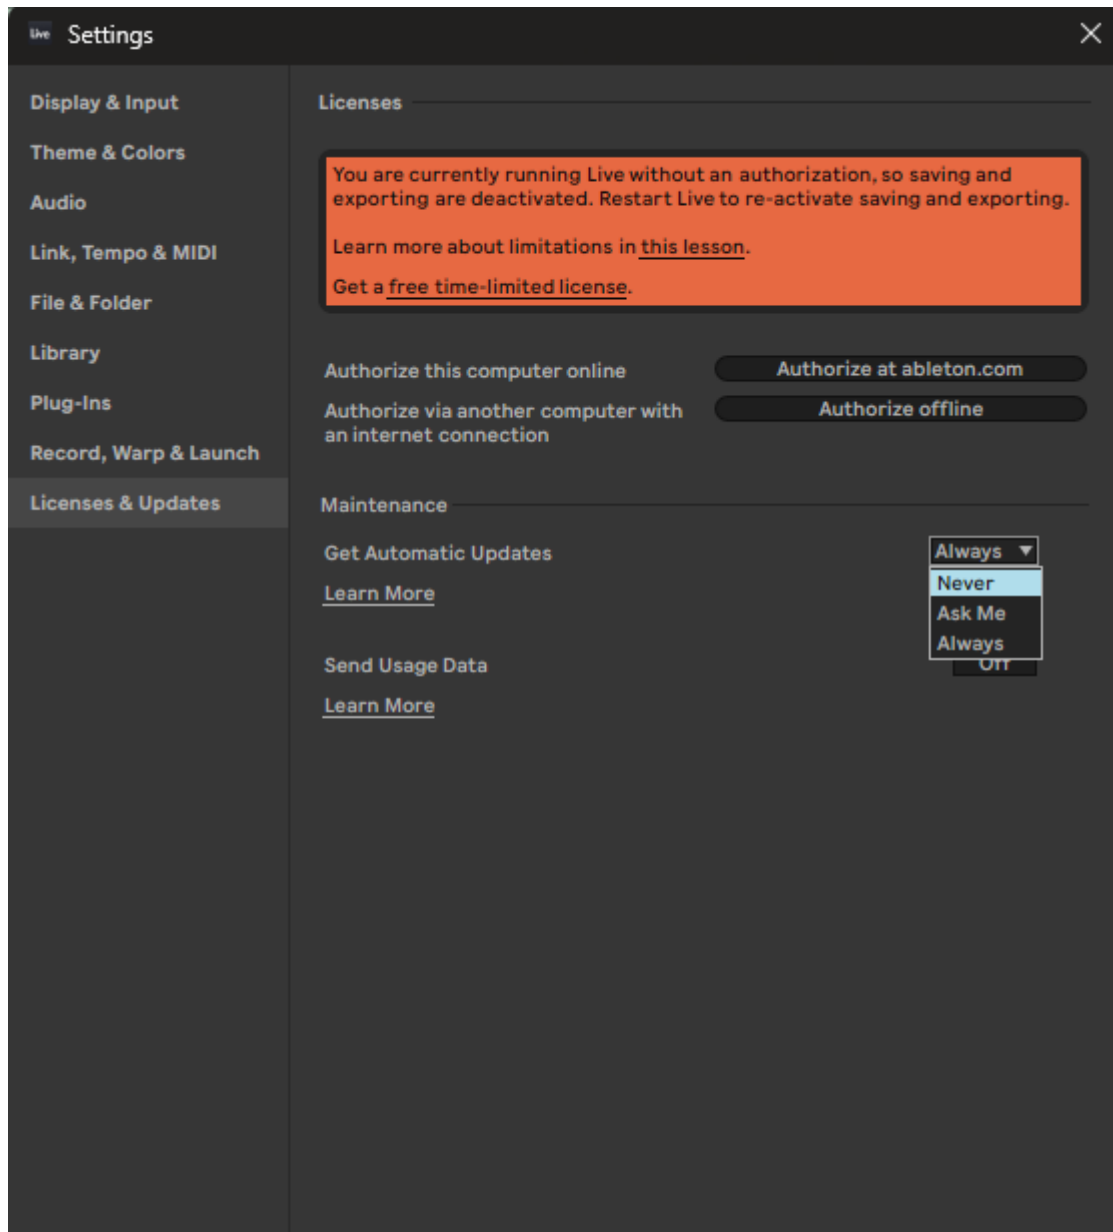

Step 20: Once you select “**Authorize Later,**” open the **Help** menu located at the top of the software and click “**User Account and Licenses**” from the list of options.

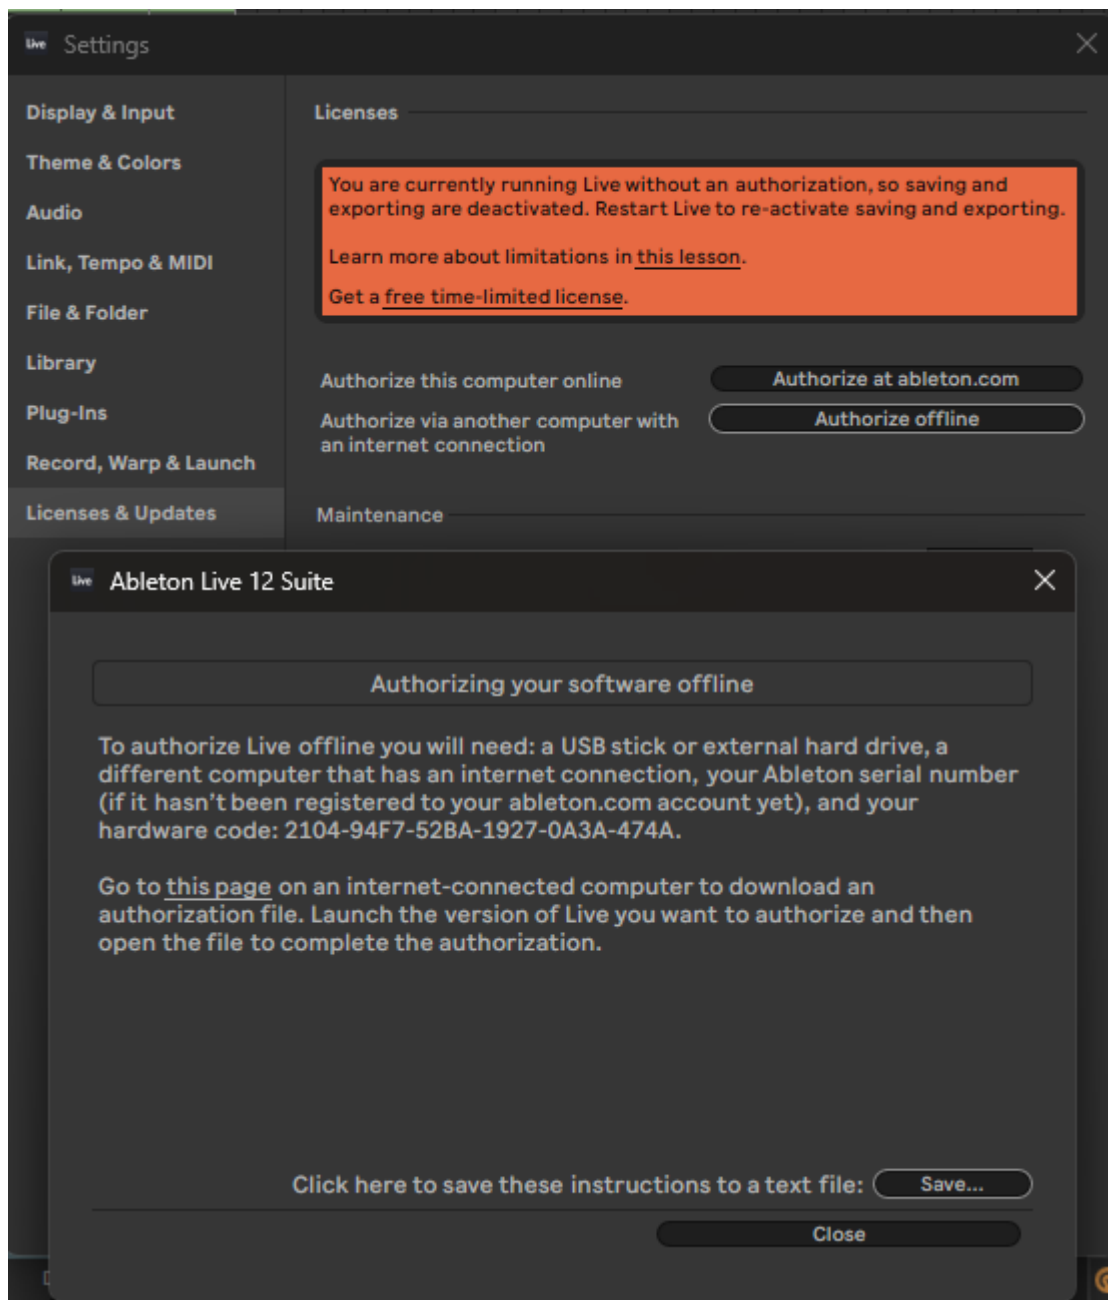

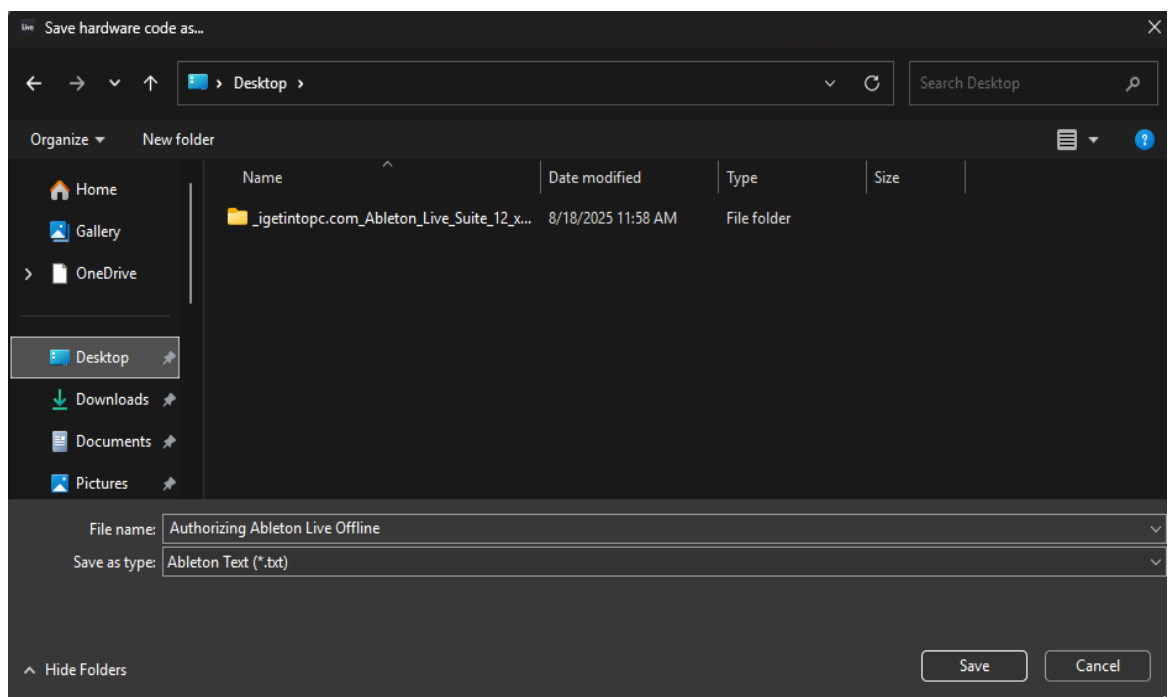

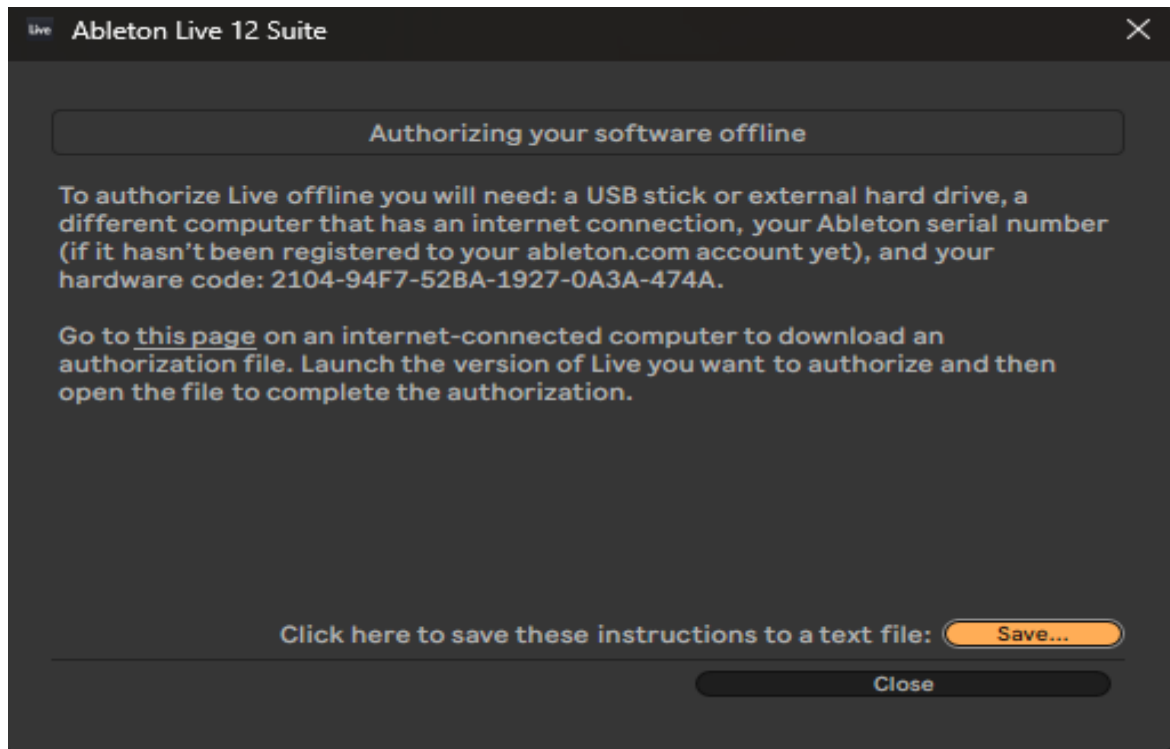

Step 21: After accessing **User Account and Licenses**, you will see the following popup settings. Navigate to the **Maintenance** section and change the automatic update setting from “**Always**” to “**Never.**”

Step 22: After that, navigate to the “**Authorize via Another Computer with an Internet Connection**” option and select “**Authorize Offline.**” A new screen will open, allowing you to save the offline authorization file to a location of your choice.

Step 23: After saving the file, you will see the offline authorization instructions. Copy the hardware code provided, as shown in the screenshot below.

```
File Edit View H1  B I S  A
Instructions for Offline Authorization
-----

To authorize Live offline you will need:

- A USB stick or external hard drive

- A different computer that has an internet connection

- Your Ableton serial number (if it hasn't been registered to your ableton.com account yet)

- Your hardware code: 2104-94F7-52BA-1927-0A3A-474A

Go to this page on a separate internet-connected computer to download an authorization file from your
account: https://www.ableton.com/account/authorize/offline/

You can then move that file to your offline computer using a USB stick or external hard drive. Launch
the version of Live you want to authorize and then open the file to complete the authorization.

Step 25: When you open the _igetintopc.com_fix folder, you will find all the files shown in the screenshot below and you will need to run “Ableton Keygen v2”.

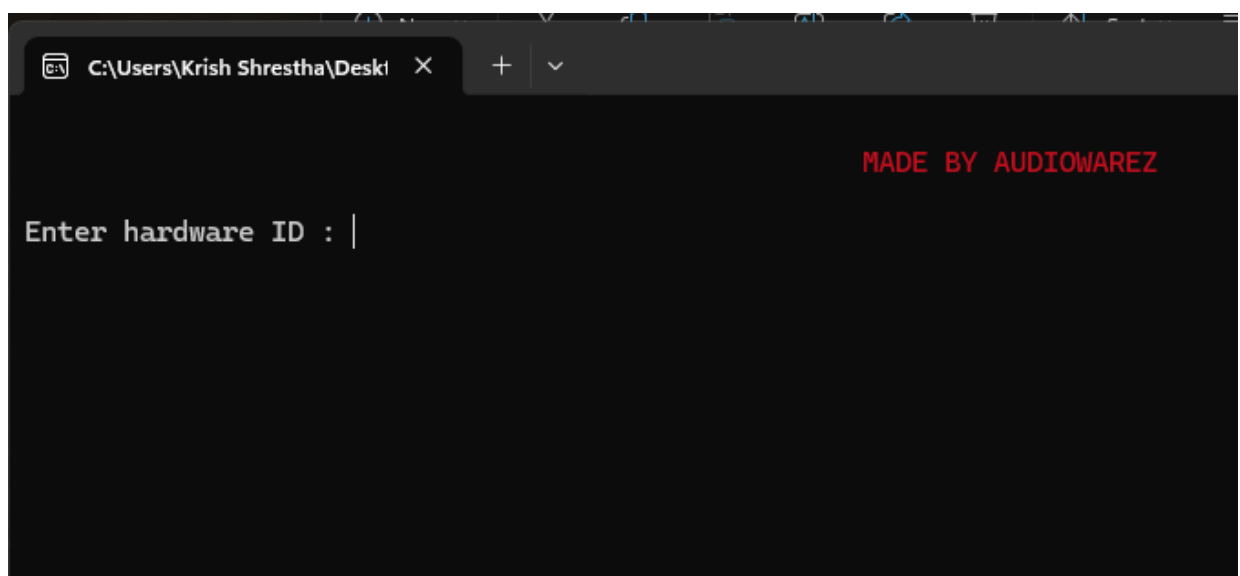

Step 26: When you open the Ableton Keygen v2, a security warning may appear. Click **“More Info”** as shown below, then select **“Run Anyway”** to launch the Ableton keygen v2 file.

Step 27: Once the Ableton Keygen v2 file is running, paste the hardware code you copied from the offline authorization instructions.

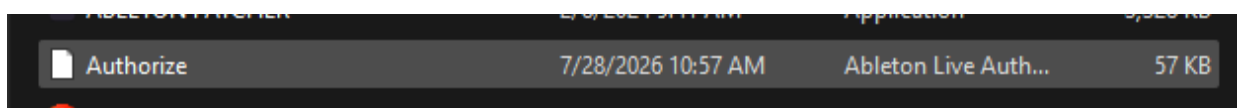

```
C:\Users\Krish Shrestha\Desktop X + v
MADE BY AUDIOWAREZ
Enter hardware ID : 2104-94F7-52BA-1927-0A3A-474A|
```

Step 28: After entering the hardware code, you will be prompted to select the software version and variant. Once completed, you will receive an “Authorize.auz” license file, which will be required later to access the software license.

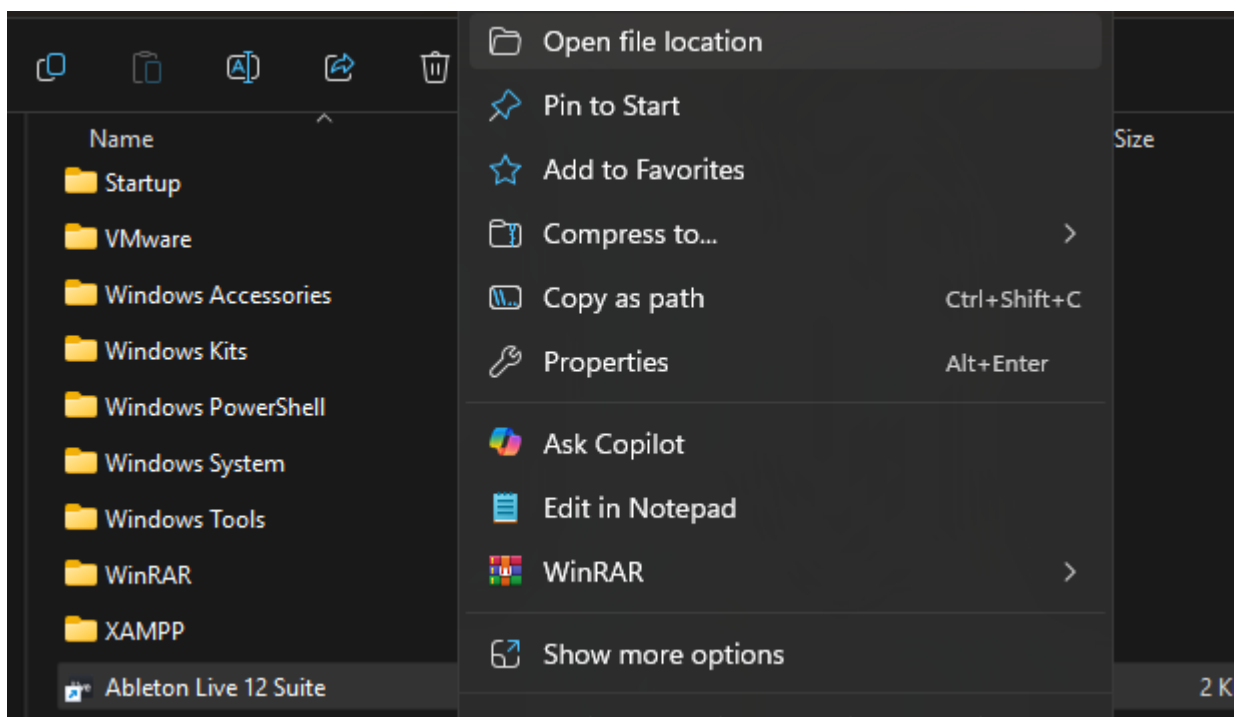

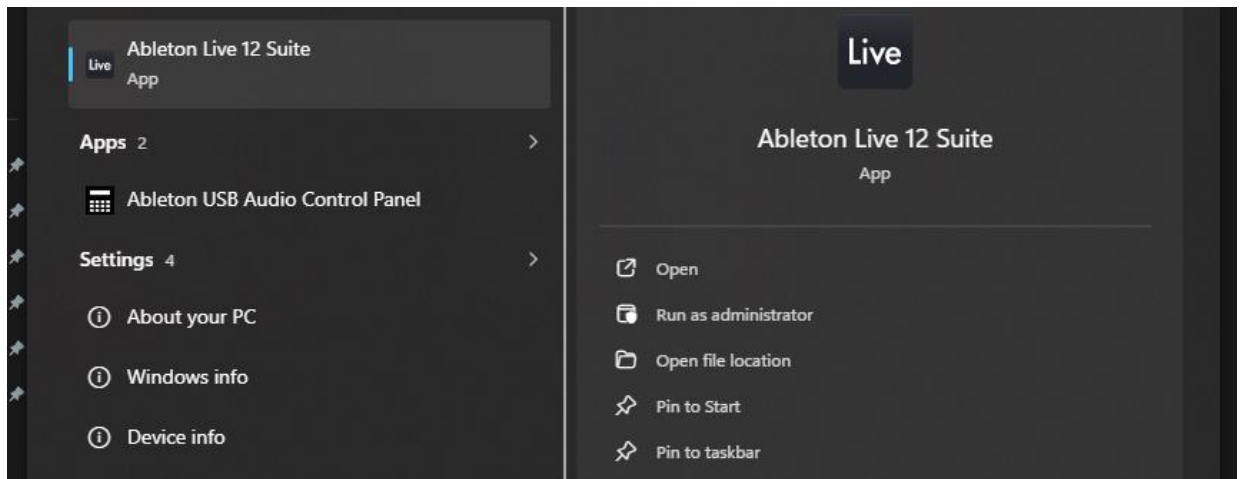

```
C:\Users\Krish Shrestha\Desktop X + v
MADE BY AUDIOWAREZ
Enter hardware ID : 2104-94F7-52BA-1927-0A3A-474A
Enter version (10, 11, or 12): 12|
```

```
MADE BY AUDIOWAREZ
Enter hardware ID : 2104-94F7-52BA-1927-0A3A-474A
Enter version (10, 11, or 12): 12
Select variant:
0 - Suit or Standard
1 - Lite
2 - Intro
3 - 12.0 old(Suit)
Enter variant number: 0|
```

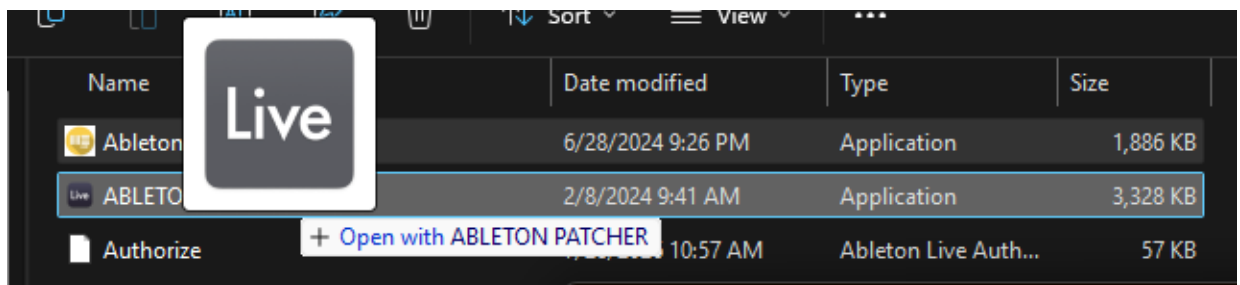

```

Step 29: After obtaining the authorization license file, open the Ableton Live 12 Suite file location shown in the screenshot below.

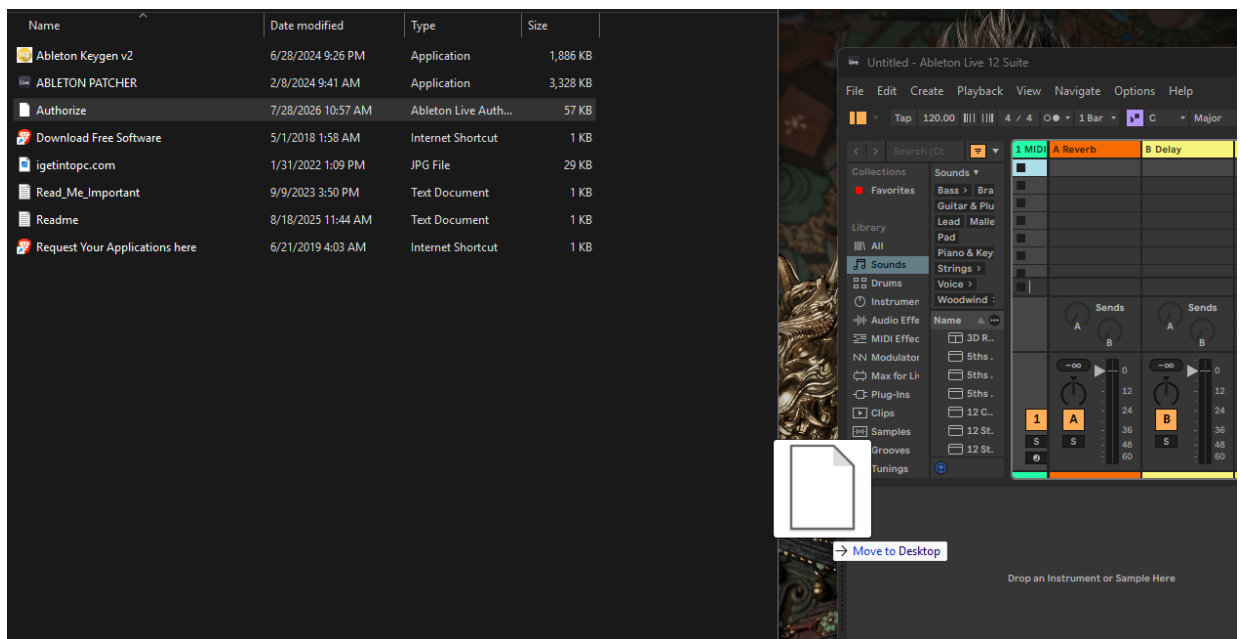

Step 30: Next, drag and drop the Ableton Live 12 Suite application file from its original location into the Ableton patcher file, as shown below.

Step 31: After dragging and dropping the Ableton Live 12 Suite application file into the patcher, the application will be successfully patched, as shown in the screenshot below.

Step 32: After patching Ableton, launch the software and drag and drop the Authorize.auz file that was created using the hardware code obtained during the offline authorization process through Ableton Keygen v2.

Step 33: After adding the Authorize.auz license file to Ableton, the software will be successfully activated and ready to run, as demonstrated in the image below.
