Signing an Autodesk Account

Step 1: Access the Autodesk Maya Product Page

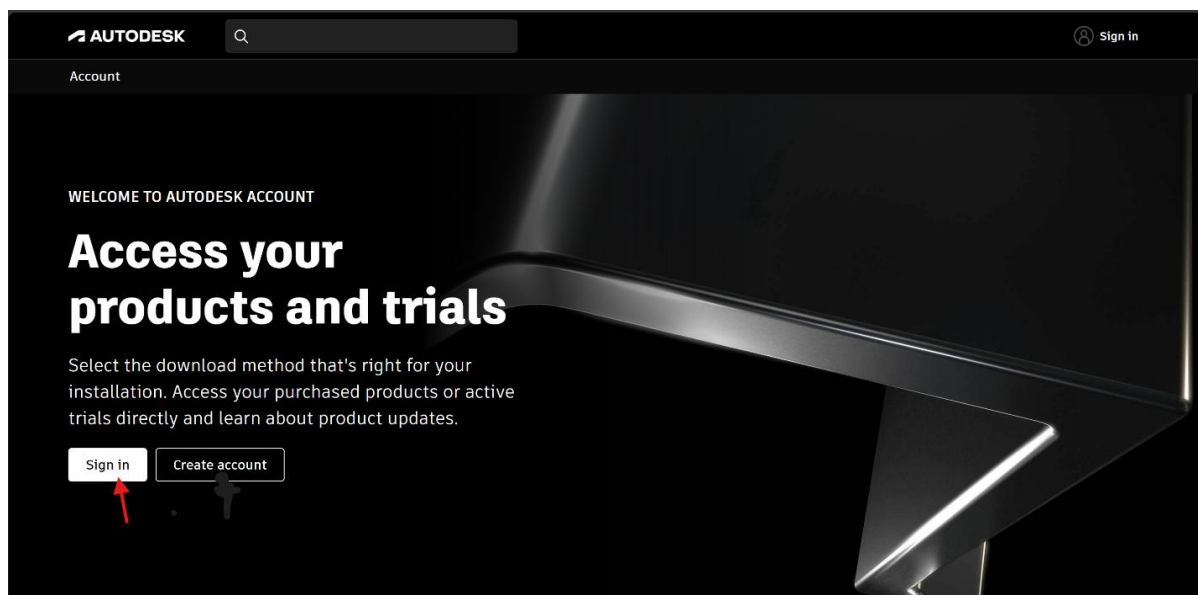

Open a web browser and navigate to the official Autodesk website.

<https://www.autodesk.com/products/maya/overview?msocid=1514597284216f3311a64e4a85ba6eee>

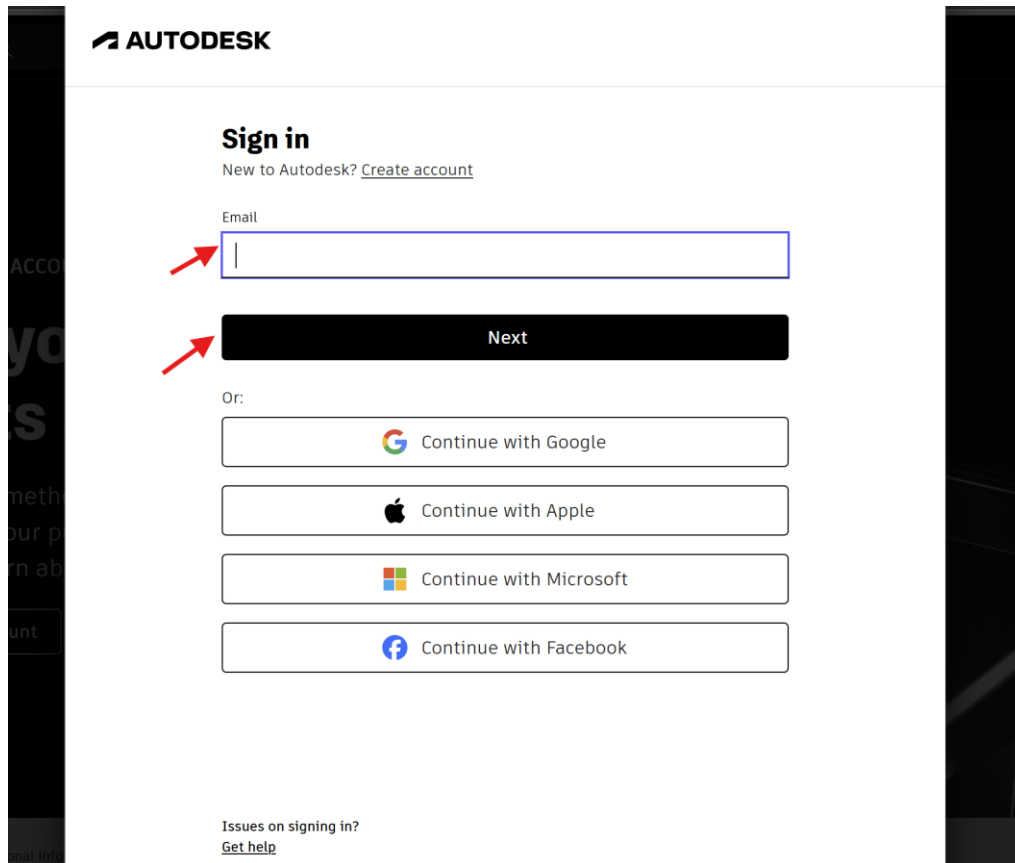

Step 2: Sign In or Create an Account

Click **Sign In** with your college email.

Step 3: Enter Your email

Use your college email to sign in. Click **Next** to continue.

The image shows the Autodesk sign-in page. At the top left is the Autodesk logo. Below it, the heading "Sign in" is followed by the text "New to Autodesk? [Create account](#)". There is an "Email" label above a text input field. A red arrow points to the input field. Below the input field is a black button labeled "Next", with another red arrow pointing to it. Underneath the "Next" button is the text "Or:" followed by four social login options, each in a button: "Continue with Google" (with Google logo), "Continue with Apple" (with Apple logo), "Continue with Microsoft" (with Microsoft logo), and "Continue with Facebook" (with Facebook logo). At the bottom left, there is a link "Issues on signing in? [Get help](#)".

Step 25: Open product

After signing in Open product dialog box will appear click **open product** and it will start to load and dashboard will appear.

Troubleshooting

Issue	Possible Cause	Recommended Solution
Unable to sign in to an Autodesk Account	Incorrect email or password, or an unverified account.	Verify the login credentials and check the inbox for a verification email before trying again.
Education access request is not approved	Institution details entered incorrectly, or verification is still in progress.	Double-check the institution name and personal details, then allow time for Autodesk to process the request.
Autodesk Desktop App fails to install	Insufficient user privileges or an interrupted download.	Run the installer as Administrator and ensure a stable internet connection before retrying.
Maya installation is slow or stalls	Limited system resources or a slow internet connection.	Close unnecessary applications, ensure sufficient disk space, and wait for the installation to complete.
Maya will not launch after installation	Missing sign-in, an inactive license, or outdated graphics drivers.	Sign in with the registered Autodesk account, confirm the education license is active, and update graphics drivers.
“Trial expired” or license error message	The education license was not applied, or the trial period has ended.	Sign in to the Autodesk Account and confirm the education plan is active under Manage Products & Services.
