

How to install Parallels VM for M1/M2 MACs

Step 1: Open your web browser.

Step 2: Open the Application bar and make sure you are signed in from your Islington College email address. Then navigate to SharePoint.

Step 3: Click on the "Islington IT Helpdesk" option from the Frequent sites.

Step 8: Turn off Mac

Shut down your Mac.

Step 9: Turn on Mac holding the Power button

Press and hold the power button while turning on your computer till you see this on your screen.

Step 10: Open Options

Choose Options and then navigate to the user and press next and enter your password.

Step 11: Open Terminal

Now, go to the Menu bar. You will see Utilities as one of the options. Utilities > Terminal

it Otilities Window		
Startup Security Utility		
Share Disk		
Chare Disk		
		Restore from Time Machine
		If you have backup of your system that you want to resto
		Reinstall macOS Ventura
		Install a new copy of macOS Ventura onto your Mac.
	A CONTRACTOR OF	
		Safari Browco Applo Support to get hele with would be
	Real And	Sionse Apple Support to get help with your Mac.
	(22)	
		DISK Utility Repair or erase a disk using Disk Utility
		and a start a disk doing blak ounty.

In the terminal and input the following command:

- → csrutil disable
- → Enter your password

Step 12: Restart Mac

Now, navigate to the menu bar (top left corner to the Apple Logo) and restart your computer or type **REBOOT**.

Step 13: Turn OFF Wifi

Turn off the wifi on your computer.

Step 14: Install Parallels

Go to the file you downloaded in Step 1 and open parallels.dmg file by right-clicking on it and choosing the install option.After the installation, **QUIT** the parallels desktop completely before running crack.

Step 15: Open Terminal

Go to the terminal and enter the following command. (Depends upon the folder you have the Parallels folder in; here the downloaded files are in Downloads folder.

- → cd Downloads
- → cd Parallels (tab button)
- \rightarrow cd Inject (tab button)
- \rightarrow sudo ruby main.rb
- → Enter your password

Step 16: Turn ON Wifi

Turn on the wifi on your computer.

Step 17: Check License and Download Win 11

Check if your Parallels has been cracked. For that, Open Parallels, right click on the Parallels icon at the bottom and click licences option and there you will be able to see that you will have acquired permanent licence. If you have the sign in Option then your parallels have not been cracked. If so, close parallels and repeat from Step 11 again.

Then, you will be able to download Windows 11. Let it install and it will work fine.
