

How to install Maya

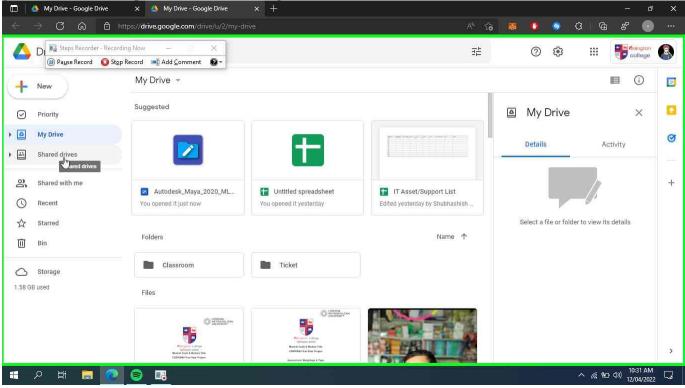

$\mathbf{2022}$

Step1: open your browser in the desktop you are using

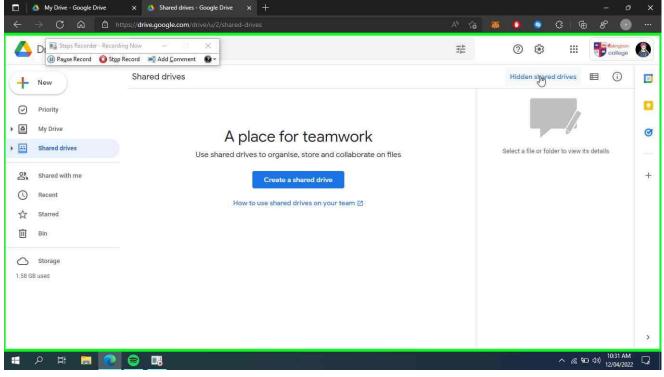

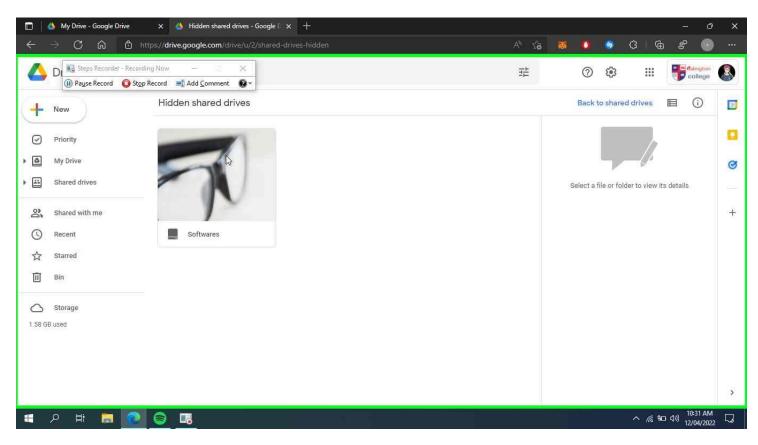

Step 2: open google drive(drive.google.com) using your college id usually that starts with np

Step 3: click on shared drive on the left mid side of the browser and click on the Hidden Shared drive on the right top side

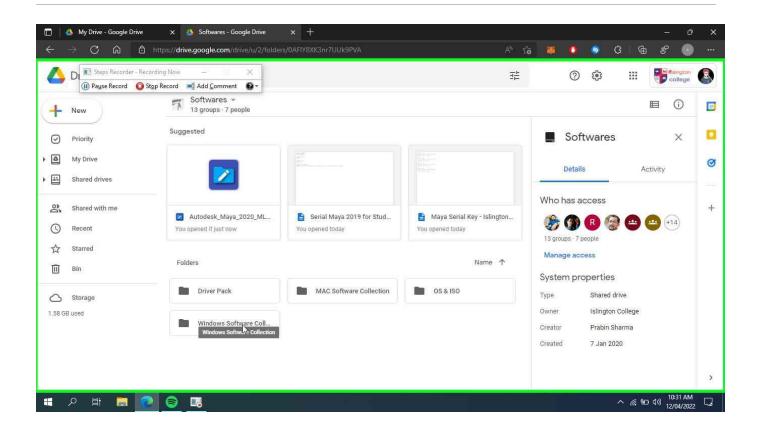

Step 4: Click on the software folder which has glasses on them.

Step 5: click on either mac software collection (if you use mac) or windows software collection (if you use windows)
